

Uploading and Sharing Contents on TeacherTube

Videos, Audios, Photos, Documents

TeacherTube is a site where anyone who has any content of educational value to upload and share the contents. This requires that the person create an account on TeacherTube and choose their role (aside from parent role).

Uploading and sharing media on your TeacherTube channel consists of the following simple steps:

1. Click the upload button on the upper right corner of the TeacherTube website to open the upload page. If you are not logged in, TeacherTube will redirect you to the sign up and sign in page so you can log in to access the upload page.
2. On the upload page, select the media you want to upload from your computer and click next.

3. Wait until the video is fully uploaded as will be indicated by a progress bar

4. After the media has finished uploading, you will be presented a detail page where you will fill in such details as
 - a. File title: which should be relevant to the content of the media uploaded
 - b. File description: short description of the content uploaded
 - c. TeacherTube will present with a choice of thumbnails if the media you have uploaded is video. Click on the one you want
 - d. Type in the several keywords which will make searching for your media easy to find. It will also ensure that the media is displayed under category of related videos.
 - e. Select the category or subject that your media belong
 - f. Optionally, you can add more category by clicking on the add button
 - g. Click on privacy setting to take you to the privacy setting page

5. Privacy setting include video privacy, video embedding, video rating, and video download settings. At the end, click next to proceed to processing.

PRIVACY SETTINGS

Video Privacy

Public - Share your video with Everyone! (Recommended)

Private - Viewable by only you.

Unlisted (anyone with the link and/or password can view)

Logged-In only (only logged-in users can watch)

Video Embedding

Allow embedding of your video

Disallow embedding of your video

Video Rating

Allow users to rate your video

Disallow users to rate your video

Video Download

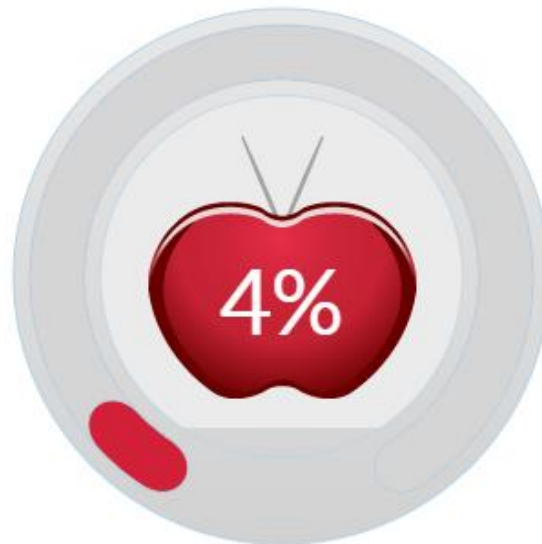

Allow users to download your video

Disallow users to download your video

The privacy setting can be updated or change anytime later by clicking on my account on the upper-right corner to reveal a dropdown menu. Click on My Hub to take you to your dashboard. Click on the media you want to edit, videos for example. Click on uploaded videos to display all videos uploaded by you under manage videos. Click on the edit button under the video you want to edit to take you to the edit page. The edit page enables you to update, the title, description, tags, subject and privacy setting of the media.

6. Processing of the uploaded media usually takes less time than uploading the media. A progress bar will indicate when it has finished processing.

UPLOAD CONTENT

Please wait while the file is processing...

7. The publishing page will be displayed after the media is processed. It will show a preview of the uploaded media, title, description, tags, url and embedded player. Click on publish to publish the media. The media will be uploaded after it has been reviewed to ensure it contains appropriate material. Anything construed as Porn, copyrighted material, harassment, or spam will not be published. TeacherTube will always post a reminder of that while the media is uploading.
